

## Maybe

We were affined for a long time  
Believed in infinity  
Today it sadly came true  
Disappointed of airy promises, we left you behind

Maybe – could be – must be – will be  
Can be – should be – have to be

Present switch into past  
Everyone of us  
Hope that your landing is soft.  
In times where for time  
Is no space to replace  
You loose what you've left

You needed just to grab the hand, but you fall

Maybe – could be – must be – will be  
Can be – should be – have to be

May new doors be open, when ours close  
May you find your happiness wherever it goes  
We wish from heart the best to you  
And your wishes should come true

Maybe – could be – must be – will be  
Can be – should be – have to be

Maybe – could be – must be – will be  
Have to be - have to be – have to be

Have to be - have to be – have to be
